SECTION 1

INTRODUCTION

1.1 Description of University

The University of Texas System Administration (“**UNIVERSITY**”) is the central office of one of the nation’s largest higher education systems with 14 campuses – including eight academic and six health institutions – and an annual operating budget of over \$15.6 billion (FY 2015). Student enrollment exceeded 212,000 in fall 2013. The University’s eight general academic campuses educate one-third of Texas’ public university students and its six health-related campuses educate two-thirds of the health professional students attending Texas public health related institution of higher education. The 14 campuses and the UT System Administration offices together employ over 90,000 faculty and staff, making the UT System one of the largest employers in the state.

The Board of Regents consists of nine regents who are appointed by the Governor of the State of Texas and confirmed by the Texas State Senate to staggered six-year terms. UNIVERSITY offices are located in Austin, Texas.

1.2 Background and Special Circumstances

UNIVERSITY provides guidance and direction in collaboration with the University of Texas at Austin oversight and support for the operation of Wide Area Networking services offered through the Office of Telecommunication Services (OTS). OTS currently manages a 20Gbps network backbone service in cooperation with Texas A&M University System in a triangle from Dallas to Austin to Houston (UT funded) to College Station to Dallas (TAMU funded). UNIVERSITY plans to upgrade its wide area network core backbone in partnership with Texas A&M from 20Gbps to 100Gbps across a geo-diverse triangle from Dallas to Austin to Houston to College Station to Dallas. These three city pairs are priority objectives for this RFP as listed in **Appendix THREE**. University is also seeking additional options to upgrade the backbone network with 100Gbps connections.

UNIVERSITY wishes to purchase lambda Ethernet transport services to implement its own private MPLS network between the listed cities in Texas. UNIVERSITY desires to purchase the services for the next three years. If the vendor offers the same or similar services to other users, UNIVERSITY expects the cost for those services to be the maximum price offered to UNIVERSITY and encourages vendors to offer discounted prices given the educational mission of UNIVERSITY.

Due to the cost of metro transport and interconnection with other peer research networks at existing points of presence in each of the target cities, the vendor must quote service to the specific points of presence locations noted in the tables in **Appendix THREE**.

1.3 Objective of this Request for Proposal

The University of Texas System Administration (“**University**”) is soliciting proposals in response to this Request for Proposal, RFP No. OTS12212015 (this “**RFP**”), for Selection of a Vendor to Provide lambda Ethernet transport services to implement its own private MPLS network between the listed cities in Texas, from qualified vendors to

provide (the “**Services**”). The Services are more specifically described in **Section 5.4** (Scope of Work) of this RFP.

1.4 Group Purchase Authority

Texas law authorizes institutions of higher education (defined by Section 61.003, Education Code) to use the group purchasing procurement method (ref. Sections 51.9335, 73.115, and 74.008, Education Code). Additional Texas institutions of higher education may therefore elect to enter into a contract with the successful Proposer under this RFP. In particular, Proposer should note that University is part of The University of Texas System ("UT System"), which is comprised of nine academic and six health universities described at <http://www.Universitysystem.edu/institutions>. UT System institutions routinely evaluate whether a contract resulting from a procurement conducted by one of the institutions might be suitable for use by another, and if so, this could give rise to additional purchase volumes. As a result, in submitting its proposal in response to this RFP, Proposer should consider proposing pricing and other commercial terms that take into account such higher volumes and other expanded opportunities that could result from the eventual inclusion of other institutions in the purchase contemplated by this RFP.

SECTION 2

NOTICE TO PROPOSER

2.1 Submittal Deadline

UNIVERSITY will accept proposals submitted in response to this RFP until **2:00 p.m.**, Central Standard Time on **Monday, December 21, 2015** (the “**Submittal Deadline**”).

2.2 UNIVERSITY Contact Person

Proposers will direct all questions or concerns regarding this RFP to the following UNIVERSITY contact (“**UNIVERSITY Contact**”):

Marc Milstein
Office of the Chief Information Officer
601 Colorado Street
Austin, Texas 78701
mmilstein@utsystem.edu

UNIVERSITY specifically instructs all interested parties to restrict all contact and questions regarding this RFP to written communications forwarded to UNIVERSITY Contact. UNIVERSITY Contact must receive all questions or concerns no later than December 14, 2015. UNIVERSITY will have a reasonable amount of time to respond to questions or concerns. It is UNIVERSITY’ intent to respond to all appropriate questions and concerns; however, UNIVERSITY reserves the right to decline to respond to any question or concern.

2.3 Criteria for Selection

The successful Proposer, if any, selected by UNIVERSITY in accordance with the requirements and specifications set forth in this RFP will be the Proposer that submits a proposal in response to this RFP on or before the Submittal Deadline that is the most advantageous to UNIVERSITY. The successful Proposer is referred to as the “**Contractor.**”

Proposer is encouraged to propose terms and conditions offering the maximum benefit to UNIVERSITY in terms of (1) services to UNIVERSITY, (2) total overall cost to UNIVERSITY, and (3) project management expertise. Proposers should describe all educational, state and local government discounts, as well as any other applicable discounts that may be available to UNIVERSITY in a contract for the Services.

An evaluation team from UNIVERSITY will evaluate proposals. The evaluation of proposals and the selection of Contractor will be based on the information provided by Proposer in its proposal. UNIVERSITY may give consideration to additional information if UNIVERSITY deems such information relevant.

The criteria to be considered by UNIVERSITY in evaluating proposals and selecting Contractor, will be those factors listed below:

2.3.1 Threshold Criteria Not Scored

2.3.1.1 Ability of University to comply with laws regarding Historically Underutilized Businesses; and

2.3.1.2 Ability of University to comply with laws regarding purchases from persons with disabilities.

2.3.2 Scored Criteria

2.3.2.1 the cost of goods and services;

2.3.2.2 the reputation of the Proposer and of the Proposer's goods or services;

2.3.2.3 the quality of the Proposer's goods or services;

2.3.2.4 the extent to which the goods or services meet the University's needs;

2.3.2.5 the Proposer's past relationship with the University;

2.3.2.6 the total long-term cost to the University of acquiring the Proposer's goods or services

2.4 Key Events Schedule

Issuance of RFP	November 24, 2015
Pre-Proposal Conference (ref. Section 2.6 of this RFP)	December 4, 2015

2.5 Historically Underutilized Businesses

2.5.1 All agencies of the State of Texas are required to make a good faith effort to assist historically underutilized businesses (each a “**HUB**”) in receiving contract awards. The goal of the HUB program is to promote full and equal business opportunity for all businesses in contracting with state agencies. Pursuant to the HUB program, if under the terms of any agreement or contractual arrangement resulting from this RFP, Contractor subcontracts any of the Services, then Contractor must make a good faith effort to utilize HUBs certified by the Procurement and Support Services Division of the Texas Comptroller of Public Accounts. Proposals that fail to comply with the requirements contained in this Section 2.5 will constitute a material failure to comply with advertised specifications and will be rejected by University as non-responsive. Additionally, compliance with good faith effort guidelines is a condition precedent to awarding any agreement or contractual arrangement resulting from this RFP. Proposer acknowledges that, if selected by University, its obligation to make a good faith effort to utilize HUBs when subcontracting any of the Services will continue throughout the term of all agreements and contractual arrangements resulting from this RFP. Furthermore, any subcontracting of the Services by the Proposer is subject to review by University to ensure compliance with the HUB program.

2.5.2 University has reviewed this RFP in accordance with Title 34, *Texas Administrative Code*, Section 20.13 (a), and has determined that subcontracting opportunities are probable under this RFP. As stated in University’s Policy on

Utilization of Historically Underutilized Businesses attached as **APPENDIX TWO** and incorporated for all purposes, the HUB goal for this RFP is 26% (Other Services Contracts).

- 2.5.3 A HUB Subcontracting Plan (“**HSP**”) is required as part of Proposer’s proposal. The HSP will be developed and administered in accordance with University’s Policy on Utilization of Historically Underutilized Businesses attached as **APPENDIX TWO** and incorporated for all purposes.

Each Proposer must complete and return the HSP in accordance with the terms and conditions of this RFP, including **APPENDIX TWO**. Proposers that fail to do so will be considered non-responsive to this RFP in accordance with Section 2161.252, Government Code.

Questions regarding the HSP may be directed to:

Contact: Amy Nemetz
Office of HUB Development
Phone: 512-499-4485
Email: anemetz@utsystem.edu

Contractor will not be permitted to change its HSP unless: (1) Contractor completes a newly modified version of the HSP in accordance with the terms of **APPENDIX TWO** that sets forth all changes requested by Contractor, (2) Contractor provides University with such a modified version of the HSP, (3) University approves the modified HSP in writing, and (4) all agreements or contractual arrangements resulting from this RFP are amended in writing by University and Contractor to conform to the modified HSP.

- 2.5.4 Proposer must submit three (3) originals of the HSP to University at the same time it submits its proposal to University (ref. **Section 3.2** of this RFP.) The three (3) originals of the HSP must be submitted under separate cover and in a separate envelope (the “HSP Envelope”). Proposer must ensure that the top outside surface of its HSP Envelope clearly shows and makes visible:

2.5.4.1 the RFP No. (ref. **Section 1.3** of this RFP) and the Submittal Deadline (ref. **Section 2.1** of this RFP), both located in the lower left hand corner of the top surface of the envelope,

2.5.4.2 the name and the return address of the Proposer, and

2.5.4.3 the phrase “HUB Subcontracting Plan”.

Any proposal submitted in response to this RFP that is not accompanied by a separate HSP Envelope meeting the above requirements will be rejected by University and returned to the Proposer unopened as that proposal will be considered non-responsive due to material failure to comply with advertised specifications. Furthermore, University will open a Proposer’s HSP Envelope prior to opening the proposal submitted by the Proposer, in order to ensure that the Proposer has submitted the number of completed and signed originals of the Proposer’s HUB Subcontracting Plan (“HSP”) that are required by this RFP. A Proposer’s failure to submit the number of completed and signed originals of the HSP that are required by this RFP will result in University’s rejection of the

proposal submitted by that Proposer as non-responsive due to material failure to comply with advertised specifications; such a proposal will be returned to the Proposer unopened (ref. **Section 1.5** of **APPENDIX ONE** to this RFP). **Note:** The requirement that Proposer provide three originals of the HSP under this **Section 2.5.4** is separate from and does not affect Proposer's obligation to provide University with the number of copies of its proposal as specified in **Section 3.1** of this RFP.

2.6 Pre-Proposal Conference

University will hold a pre-proposal conference at **2:00 p.m., Central Prevailing Time on December 4, 2015, in Room 210 of Ashbel Smith Hall (ASH), 201 W. 7th Street, Austin, Texas 78701**. The pre-proposal conference will allow all Proposers an opportunity to ask University's representatives relevant questions and clarify provisions of this RFP.

SECTION 3

The copy of the Proposer's proposal bearing an original signature should contain the mark "original" on the front cover of the proposal.

If there is a conflict among the provisions in this RFP, the provision requiring Proposer to supply the better quality or greater quantity of services will prevail, or if such conflict does not involve quality or quantity, then interpretation will be in the following order of precedence:

- 3.4.1.1. Specifications and Additional Questions (ref. **Section 5** of this RFP);
- 3.4.1.2. Proposal Requirements (ref. **APPENDIX ONE**);
- 3.4.1.3. Notice to Proposers (ref. **Section 2** of this RFP).

SECTION 5

SPECIFICATIONS AND ADDITIONAL QUESTIONS

5.1 General

The minimum requirements and the specifications for the Services, as well as certain requests for information to be provided by Proposer as part of its proposal, are set forth below. As indicated in **Section 2.3** of this RFP, the successful Proposer is referred to as the “**Contractor.**”

5.2 Each Proposal must include information that clearly indicates that Proposer meets each of the following minimum qualification requirements:

5.2.1 Proposer has installed optical transport in Texas capable of transporting customers’100Gigabit Ethernet wavelengths.

5.2.2 Proposer has an understanding of the special educational and research needs of higher education in Texas.

5.3 Additional Questions Specific to this RFP

Proposer must submit the following information as part of Proposer’s proposal:

5.3.1 If Proposer takes exception to any terms or conditions set forth in **Section 4** of this RFP, Proposer must submit a list of the exceptions.

5.3.2 In its proposal, Proposer must respond to each item listed in **APPENDIX FOUR, Security Characteristics and Functionality of Contractor’s Information Resources**. Responses to **APPENDIX FOUR** will be incorporated into the Agreement and will be binding on Contractor.

5.4 Scope of Work

To deliver the proposed services the University, at its sole discretion, may allow Provider to co-locate equipment in University facilities. Provider equipment may also serve other Provider customers. University should be prime beneficiary of any such co-location (e.g. lower price, higher performance). This provision does not obligate the University to acquire colocation space for Provider in non- University owned facilities. This provision does not obligate the University to permit additional service providers or Provider clients access through or to the Provider equipment utilizing University facilities.

Contractor will provide the following services to University:

5.4.1 The University is seeking 100Gigabit Ethernet proposals connecting the set of locations indicated in **APPENDIX THREE** meeting the following specifications. Vendors may bid any City Pair Connections.

5.4.2 Service should be a 100Gig Ethernet connecting the two locations indicated in **APPENDIX THREE**.

- 5.4.3 In order to fulfill University of Texas and state of Texas security policies, the Ethernet should be a wavelength without any intermediate equipment capable of opening or interfacing with the University's Ethernet frames.
- 5.4.4 The service should be priced with a one-year agreement AND with a three-year agreement in separate tables in **APPENDIX THREE**. Vendors should include any prepaid discounts that are available.
- 5.4.5 The proposal should include all installation and parts to deliver the 100Gigabit as a SR-10 MPO interface and as a single mode fiber interface (designate the type of single mode fiber pair interface). The University will choose which proposed interface.
- 5.4.6 The proposal should include three years of all support to sustain the 100Gigabit Ethernet transport.
- 5.4.7 Vendors should specify their SLA for the service.
- 5.4.8 Vendors must specify the transport equipment including model numbers for transponders.
- 5.4.9 If vendors bid 100Gig services, vendors must supply at least one reference for existing 100Gigabit inter-city transport service.
- 5.4.10 Vendors must supply the delivery time for any proposed service.
- 5.4.11 Provider must indicate any capital installation cost separately from the recurring cost for each of the sets of city connections. The capital cost must be a single initial cost and Providers assumes all responsibility and liability for any Provider upgrades required to sustain the serviced on Providers network throughout the term of any agreement.
- 5.4.12 Provider must make all proposals valid for at least one year.
- 5.4.13 Provider must provide all services offerings to any Texas Higher Education Coordinating Board certified higher education entity in Texas for a period of one year from the proposal date.
- 5.4.14 Provider must propose a three (3) year price for the service that can be paid monthly or in a pre-paid lump sum. If any discounts are available for per-paid service, Provider must specifically state the discounts. If any discounts are available for multiple inter-city purchases done at the same time, Provider must state the discounts. Any multiple inter-city discounts must be available to all higher education entities purchasing at the same time.
- 5.4.15 Provider must deliver the service with 99.9% reliability and offer credits or refunds when service falls below the 99.9% level. If Provider's optical equipment utilizes Forward Error Correction (FEC), Provider must provide monthly reports on the FEC data to Client.
- 5.4.16 Provider must provide topology information including which portion of their topology that is aerial and which portion that is buried. Any 3rd party provider must be indicated if Provider is not underlying rights holder of optical transport. The University will sign an NDA with vendor to review the information.

- 5.4.17 Provider must provide at least one reference of existing 100Gig inter-city connection.
- 5.4.18 Vendors must sign a Non-Disclosure Agreement and indicate which city pairs vendor intends to bid in order for University to provide exact University POP locations.

SECTION 1

GENERAL INFORMATION

1.1 Purpose

University is soliciting competitive sealed proposals from Proposers having suitable qualifications and experience providing services in accordance with the terms, conditions and requirements set forth in this RFP. This RFP provides sufficient information for interested parties to prepare and submit proposals for consideration by University.

By submitting a proposal, Proposer certifies that it understands this RFP and has full knowledge of the scope, nature, quality, and quantity of the services to be performed, the detailed requirements of the services to be provided, and the conditions under which such services are to be performed. Proposer also certifies that it understands that all costs relating to preparing a response to this RFP will be the sole responsibility of the Proposer.

PROPOSER IS CAUTIONED TO READ THE INFORMATION CONTAINED IN THIS RFP CAREFULLY AND TO SUBMIT A COMPLETE RESPONSE TO ALL REQUIREMENTS AND QUESTIONS AS DIRECTED.

1.2 Inquiries and Interpretations

University may in its sole discretion respond in writing to written inquiries concerning this RFP and mail its response as an Addendum to all parties recorded by University as having received a copy of this RFP. Only University's responses that are made by formal written Addenda will be binding on University. Any verbal responses, written interpretations or clarifications other than Addenda to this RFP will be without legal effect. All Addenda issued by University prior to the Submittal Deadline will be and are hereby incorporated as a part of this RFP for all purposes.

Proposers are required to acknowledge receipt of each Addendum as specified in this Section. The Proposer must acknowledge all Addenda by completing, signing and returning the Addenda Checklist (ref. **Section 4 of APPENDIX ONE**). The Addenda Checklist must be received by University prior to the Submittal Deadline and should accompany the Proposer's proposal.

Any interested party that receives this RFP by means other than directly from University is responsible for notifying University that it has received an RFP package, and should provide its name, address, telephone number and FAX number to University, so that if University issues Addenda to this RFP or provides written answers to questions, that information can be provided to such party.

1.3 Public Information

Proposer is hereby notified that University strictly adheres to all statutes, court decisions and the opinions of the Texas Attorney General with respect to disclosure of public information.

University may seek to protect from disclosure all information submitted in response to this RFP until such time as a final agreement is executed.

Upon execution of a final agreement, University will consider all information, documentation, and other materials requested to be submitted in response to this RFP, to be of a non-confidential and non-proprietary nature and, therefore, subject to public disclosure under the *Texas Public Information Act (Government Code, Chapter 552.001, et seq.)*. Proposer will be advised of a request for public information that implicates their materials and will have the opportunity to raise any objections to disclosure to the Texas Attorney General. Certain information may be protected from release under Sections 552.101, 552.110, 552.113, and 552.131, *Government Code*.

1.4 Type of Agreement

Contractor, if any, will be required to enter into a contract with University in a form substantially similar to **Section 4** of this RFP and incorporated for all purposes.

1.5 Proposal Evaluation Process

University will select Contractor by using the competitive sealed proposal process described in this Section. University will open the HSP Envelope submitted by a Proposer prior to opening the Proposer's proposal in order to ensure that the Proposer has submitted the number of completed and signed originals of the Proposer's HUB Subcontracting Plan (also called the HSP) that are required by this RFP (ref. **Section 2.5.4** of the RFP.) All proposals submitted by the Submittal Deadline accompanied by the number of completed and signed originals of the HSP that are required by this RFP will be opened publicly to identify the name of each Proposer submitting a proposal. Any proposals that are not submitted by the Submittal Date or that are not accompanied by the number of completed and signed originals of the HSP that are required by this RFP will be rejected by University as non-responsive due to material failure to comply with advertised specifications. After the opening of the proposals and upon completion of the initial review and evaluation of the proposals, University may invite one or more selected Proposers to participate in oral presentations. University will use commercially reasonable efforts to avoid public disclosure of the contents of a proposal prior to selection of Contractor.

University may make the selection of Contractor on the basis of the proposals initially submitted, without discussion, clarification or modification. In the alternative, University may make the selection of Contractor on the basis of negotiation

with any of the Proposers. In conducting such negotiations, University will use commercially reasonable efforts to avoid disclosing the contents of competing proposals.

At University's sole option and discretion, University may discuss and negotiate all elements of the proposals submitted by selected Proposers within a specified competitive range. For purposes of negotiation, University may establish, after an initial review of the proposals, a competitive range of acceptable or potentially acceptable proposals composed of the highest rated proposal(s). In that event, University will defer further action on proposals not included within the competitive range pending the selection of Contractor; provided, however, University reserves the right to include additional proposals in the competitive range if deemed to be in the best interests of University.

After submission of a proposal but before final selection of Contractor is made, University may permit a Proposer to revise its proposal in order to obtain the Proposer's best and final offer. In that event, representations made by Proposer in its revised proposal, including price and fee quotes, will be binding on Proposer. University will provide each Proposer within the competitive range with an equal opportunity for discussion and revision of its proposal. University is not obligated to select the Proposer offering the most attractive economic terms if that Proposer is not the most advantageous to University overall, as determined by University.

University reserves the right to (a) enter into an agreement for all or any portion of the requirements and specifications set forth in this RFP with one or more Proposers, (b) reject any and all proposals and re-solicit proposals, or (c) reject any and all proposals and temporarily or permanently abandon this selection process, if deemed to be in the best interests of University. Proposer is hereby notified that University will maintain in its files concerning this RFP a written record of the basis upon which a selection, if any, is made by University.

1.6 Proposer's Acceptance of Evaluation Methodology

By submitting a proposal, Proposer acknowledges (1) Proposer's acceptance of [a] the Proposal Evaluation Process (ref. **Section 1.5** of **APPENDIX ONE**), [b] the Criteria for Selection (ref. **2.3** of this RFP), [c] the Specifications and Additional Questions (ref. **Section 5** of this RFP), [d] the terms and conditions of Section 4 of this RFP and [e] all other requirements and specifications set forth in this RFP; and (2) Proposer's recognition that some subjective judgments must be made by University during this RFP process.

1.7 Solicitation for Proposal and Proposal Preparation Costs

Proposer understands and agrees that (1) this RFP is a solicitation for proposals and University has made no representation written or oral that one or more agreements with University will be awarded under this RFP; (2) University issues this RFP predicated on University's anticipated requirements for the Services, and University has made no representation, written or oral, that any particular scope of services will actually be required by University; and (3) Proposer will bear, as its sole risk and responsibility, any cost that arises from Proposer's preparation of a proposal in response to this RFP.

1.8 Proposal Requirements and General Instructions

- 1.8.1 Proposer should carefully read the information contained herein and submit a complete proposal in response to all requirements and questions as directed.
- 1.8.2 Proposals and any other information submitted by Proposer in response to this RFP will become the property of University.
- 1.8.3 University will not provide compensation to Proposer for any expenses incurred by the Proposer for proposal preparation or for demonstrations or oral presentations that may be made by Proposer. Proposer submits its proposal at its own risk and expense.
- 1.8.4 Proposals that (i) are qualified with conditional clauses; (ii) alter, modify, or revise this RFP in any way; or (iii) contain irregularities of any kind, are subject to disqualification by University, at University's sole discretion.
- 1.8.5 Proposals should be prepared simply and economically, providing a straightforward, concise description of Proposer's ability to meet the requirements and specifications of this RFP. Emphasis should be on completeness, clarity of content, and responsiveness to the requirements and specifications of this RFP.
- 1.8.6 University makes no warranty or guarantee that an award will be made as a result of this RFP. University reserves the right to accept or reject any or all proposals, waive any formalities, procedural requirements, or minor technical inconsistencies, and delete any requirement or specification from this RFP or the Agreement when deemed to be in University's best interest. University reserves the right to seek clarification from any Proposer concerning any item contained in its proposal prior to final selection. Such clarification may be provided by telephone conference or personal meeting with or writing to University, at University's sole discretion. Representations made by Proposer within its proposal will be binding on Proposer.
- 1.8.7 Any proposal that fails to comply with the requirements contained in this RFP may be rejected by University, in University's sole discretion.

1.9 Preparation and Submittal Instructions

1.9.1 Specifications and Additional Questions

Proposals must include responses to the questions in Specifications and Additional Questions (ref. **Section 5** of this RFP). Proposer should reference the item number and repeat the question in its response. In cases where a question does not apply or if unable to respond, Proposer should refer to the item number, repeat the question, and indicate N/A (Not Applicable) or N/R (No Response), as appropriate. Proposer should explain the reason when responding N/A or N/R.

1.9.2 Execution of Offer

Proposer must complete, sign and return the attached Execution of Offer (ref. **Section 2** of **APPENDIX ONE**) as part of its proposal. The Execution of Offer must be signed by a representative of Proposer duly authorized to bind the Proposer to its proposal. Any proposal received without a completed and signed Execution of Offer may be rejected by University, in its sole discretion.

1.9.3 Pricing and Delivery Schedule

Proposer must complete and return the Pricing and Delivery Schedule (ref. **Section 6** of this RFP), as part of its proposal. In the Pricing and Delivery Schedule, the Proposer should describe in detail (a) the total fees for the entire scope of the Services; and (b) the method by which the fees are calculated. The fees must be inclusive of all associated costs for delivery, labor, insurance, taxes, overhead, and profit.

University will not recognize or accept any charges or fees to perform the Services that are not specifically stated in the Pricing and Delivery Schedule.

In the Pricing and Delivery Schedule, Proposer should describe each significant phase in the process of providing the Services to University, and the time period within which Proposer proposes to be able to complete each such phase.

1.9.4 Proposer's General Questionnaire

Proposals must include responses to the questions in Proposer's General Questionnaire (ref. **Section 3** of **APPENDIX ONE**). Proposer should reference the item number and repeat the question in its response. In cases where a question does not apply or if unable to respond, Proposer should refer to the item number, repeat the question, and indicate N/A (Not Applicable) or N/R (No Response), as appropriate. Proposer should explain the reason when responding N/A or N/R.

1.9.5 Addenda Checklist

Proposer should acknowledge all Addenda to this RFP (if any) by completing, signing and returning the Addenda Checklist (ref. **Section 4** of **APPENDIX ONE**) as part of its proposal. Any proposal received without a completed and signed Addenda Checklist may be rejected by University, in its sole discretion.

1.9.6 Submission

Proposer should submit all proposal materials enclosed in a sealed envelope, box, or container. The RFP No. (ref. **Section 1.3** of this RFP) and the Submittal Deadline (ref. **Section 2.1** of this RFP) should be clearly shown in the lower left-hand corner on the top surface of the container. In addition, the name and the return address of the Proposer should be clearly visible.

Proposer must also submit the number of originals of the HUB Subcontracting Plan (also called the HSP) as required by this RFP (ref. **Section 2.5** of the RFP.)

Upon Proposer's request and at Proposer's expense, University will return to a Proposer its proposal received after the Submittal Deadline if the proposal is properly identified. University will not under any circumstances consider a proposal that is received after the Submittal Deadline or which is not accompanied by the number of completed and signed originals of the HSP that are required by this RFP.

University will not accept proposals submitted by telephone, proposals submitted by Facsimile ("FAX") transmission, or proposals submitted by electronic transmission (i.e., e-mail) in response to this RFP.

Except as otherwise provided in this RFP, no proposal may be changed, amended, or modified after it has been submitted to University. However, a proposal may be withdrawn and resubmitted at any time prior to the Submittal Deadline. No proposal may be withdrawn after the Submittal Deadline without University's consent, which will be based on Proposer's submittal of a written explanation and documentation evidencing a reason acceptable to University, in University's sole discretion.

By signing the Execution of Offer (ref. **Section 2** of **APPENDIX ONE**) and submitting a proposal, Proposer certifies that any terms, conditions, or documents attached to or referenced in its proposal are applicable to this procurement only to the extent that they (a) do not conflict with the laws of the State of Texas or this RFP and (b) do not place any requirements on University that are not set forth in this RFP or in the Appendices to this

RFP. Proposer further certifies that the submission of a proposal is Proposer's good faith intent to enter into the Agreement with University as specified herein and that such intent is not contingent upon University's acceptance or execution of any terms, conditions, or other documents attached to or referenced in Proposer's proposal.

POLICY ON UTILIZATION OF HISTORICALLY UNDERUTILIZED BUSINESSES (HUBS)

Introduction

In accordance with the Texas Government Code, Sections 2161.181-182 and Title 34, Section 20.13 of the Texas Administrative Code (TAC), the Board of Regents of The University of Texas System, acting through the Office of HUB Development shall make a good faith effort to utilize Historically Underutilized Businesses (HUBs) in contracts for construction services, including professional and consulting services; and commodities contracts. The HUB Rules promulgated by the Texas Comptroller of Public Accounts (the "Texas Comptroller"), set forth in 34 TAC Sections 20.10-20.28, encourage the use of HUBs by implementing these policies through race, ethnic and gender-neutral means.

The purpose of the HUB Program is to promote full and equal business opportunities for all business in State contracting in accordance with the following goals as specified in the State of Texas Disparity Study:

- 11.2% for heavy construction other than building contracts;
- 21.1% for all building construction, including general contractors and operative builders contracts;
- 32.9% for all special trade construction contracts;
- 23.7% for professional services contracts;
- 26% for all other services contracts, and
- 21.1% for commodities contracts.

The University of Texas System shall make a good faith effort to meet or exceed the above stated goals to assist HUBs in receiving a portion of the total contract value of all contracts that UT System expects to award in a fiscal year. The University of Texas System may achieve the annual program goals by contracting directly with HUBs or indirectly through subcontracting opportunities in accordance with the Texas Government Code, chapter 2161, Subchapter F.

NOTE: The goals above are the State of Texas HUB goals. For purposes of this procurement, The University of Texas System goals listed in the Special Instructions on page 11 will apply.

SUMMARY OF REQUIREMENTS
Historically Underutilized Business (HUBs) Subcontracting Plan (HSP)

It is the policy of The University of Texas System and each of its component institutions, to promote and encourage contracting and subcontracting opportunities for Historically Underutilized Businesses (HUBs) in all contracts. Accordingly, UT System has adopted “**EXHIBIT H, Policy on Utilization of Historically Underutilized Businesses**”. The policy applies to all contracts with an expected value of \$100,000 or more. The Board of Regents of The University of Texas System is the contracting authority.

1. In all contracts for professional services, contracting services, and/or commodities with an expected value of \$100,000 or more, The University of Texas System, “UT System” or the “University” will indicate in the purchase solicitation (e.g. RFQ, RFP, or CSP) whether or not subcontracting opportunities are probable in connection with the contract. A HUB Subcontracting Plan is a required element of the architect, contractor or vendor Response to the purchase solicitation. The HUB Subcontracting Plan shall be developed and administered in accordance with the Policy. **Failure to submit a required HUB Subcontracting Plan (HSP) will result in rejection of the Response.**
2. If subcontracting opportunities are probable UT System will declare such probability in its invitations for bids, requests for proposals, or other purchase solicitation documents, and shall require submission of the appropriate HUB Subcontracting Plan with the Response.
 - a. When subcontracting opportunities are probable, and the Respondent proposes to subcontract any part of the work, the Respondent shall submit a **HUB Subcontracting Plan as prescribed by the Texas Comptroller** identifying subcontractors **[34 TAC §20.14 (d) (1)(A)(B)(C)(D) (2) (3)(A)(B)(C)(D)(E)(F) (4)(A)(B)]**.
 - b. When subcontracting opportunities are probable, but the Respondent can perform such opportunities with its employees and resources, the Respondent’s HUB Subcontracting Plan shall include **Section 3 –Self Performance [34 TAC §20.14 (d) (5) (A) (B) (C) (D)]**.
3. If subcontracting opportunities are not probable UT System will declare such probability in its invitations or bids, requests for proposals, or other purchase solicitation documents and shall require submission of the appropriate HUB Subcontracting Plan with the Response.
 - a. When subcontracting opportunities are not probable, and the Respondent proposes to perform all the work with its employees and resources, the Respondent shall submit a HUB Subcontracting Plan that includes **Section 3 – Self Performance Justification**.
 - b. When subcontracting opportunities are not probable, but the Respondent proposes to subcontract any part of the work, the Respondent shall submit a **HUB Subcontracting Plan as prescribed by the Texas Comptroller** identifying subcontractors.
4. Respondents shall follow, but are not limited to, procedures listed in the Policy when developing a HUB Subcontracting Plan.
5. **Competitive Sealed Proposals (CSP):** Respondents shall submit a HUB Subcontracting Plan (packaged separately) twenty-four (24) hours following the Response submission date and time or as prescribed by the project manager.
6. In making a determination whether a good faith effort has been made in the development of the required HUB Subcontracting Plan, UT System shall follow the procedures listed in the Policy. If accepted by the

University, the HUB Subcontracting Plan shall become a provision of the Respondent's contract with UT System. **Revisions necessary to clarify and enhance information submitted in the original HUB subcontracting plan may be made in an effort to determine good faith effort.** Any revisions after the submission of the HSP shall be approved by the HUB Coordinator.

7. **Design Build (DB) and Construction Manager @ Risk (CM@R) responses:** Respondents to a "design build" or "construction manager-at-risk" purchase solicitation shall include the Letter of HUB Commitment in their Response attesting that the Respondent has read and understands the Policy on Historically Underutilized Businesses (HUBs), and a HUB Subcontracting Plan for all preconstruction and construction services including a HUB Subcontracting Plan as prescribed by the Texas Comptroller specific to construction services identifying first, second and third tier subcontractors. Respondents proposing to perform Part 1 preconstruction services with their own resources and employees shall submit, as part of their HSP, the Self Performance Justification.
8. **DB and CM@R HUB Contract Requirements:** Contractors engaged under design-build and construction manager-at-risk contracts shall submit a HUB Subcontracting Plan for all preconstruction and construction Phase Services, and, must further comply with the requirements of this Policy by developing and submitting a HUB Subcontracting Plan for each bid package issued in buying out the guaranteed maximum or lump sum price of the project. The HSP shall identify first, second and third tier subcontractors.
9. The University of Texas System shall reject any Response that does not include a fully completed HSP as required. **An incomplete HUB Subcontracting Plan is considered a material failure to comply with the solicitation for proposals.**
10. **Changes to the HUB Subcontracting Plan:** Once a Respondent's HSP is accepted by UT System and becomes a provision of the contract between Respondent and UT System, the Respondent can only change that HSP if (a) the Respondent complies with 34 TAC Section 20.14; (b) the Respondent provides its proposed changes to UT System for review; (c) UT System (including UT System's HUB Coordinator) approves Respondent's proposed changes to its HSP; and (d) UT System and the Respondent amend their contract (in writing signed by authorized officials of both parties) in order to replace the contract's existing HSP with a revised HSP containing the changes approved by UT System.
11. **Expansion of Work:** If, after entering into a contract with a Respondent as a result of a purchase solicitation subject to the Policy, UT System wishes to expand the scope of work that the Respondent will perform under that contract through a change order or any other contract amendment (the "additional work"), UT System will determine if the additional work contains probable subcontracting opportunities not identified in the initial purchase solicitation for that contract. If UT System determines that probable subcontracting opportunities exist for the additional work, then the Respondent must submit to UT System an amended HUB Subcontracting Plan covering those opportunities that complies with the provisions of 34 TAC Section 20.14. Such an amended HSP must be approved by UT System and the Respondent (including UT System's HUB Coordinator) before (a) the contract may be amended by UT System and the Respondent to include the additional work and the amended HSP and (b) the Respondent performs the additional work. If a Respondent subcontracts any of the additional subcontracting opportunities identified by UT System for any additional work (i) without complying with 34 TAC Section 20.14 or (ii) before UT System and that Respondent amend their contract to include a revised HSP that authorizes such subcontracting, then the Respondent will be deemed to be in breach of its contract with UT System. As a result of such breach, UT System will be entitled to terminate its contract with the Respondent, and the Respondent will be subject to any remedial actions provided by Texas law, including those set forth in Chapter 2161, Texas Government Code, and 34 TAC Section 20.14. The University may report a Respondent's nonperformance under a

contract between that Respondent and UT System to the Texas Comptroller in accordance with 34 TAC Sections 20.10 through 20.18.

12. A Response may state that the Respondent intends to perform all the subcontracting opportunities with its own employees and resources in accordance with the Policy. However, if such a Respondent enters into a contract with UT System as a result of such a Response but later desires to subcontract any part of the work set forth in that contract, before the Respondent subcontracts such work it must first change its HUB Subcontracting Plan in accordance with the provisions of Section 10 above.
13. The University of Texas System shall require a professional services firm, contractor or vendor to whom a contract has been awarded to report the identity and the amount paid to its subcontractors on a monthly basis using a **HUB Subcontracting Plan (HSP) Prime Contractor Progress Assessment Report (PAR)** as a condition for payment.
14. If the University of Texas System determines that the successful Respondent failed to implement an approved HUB Subcontracting Plan in good faith, UT System, in addition to any other remedies, may report nonperformance to the Texas Comptroller in accordance with 34 TAC Section 20.14, (g) (1) related remedies of nonperformance to professional services firms, contractor and vendor implementation of the HSP.
15. In the event of any conflict between this “Summary of Requirements” and the remainder of the HUB Policy, the remainder of the HUB Policy will control.
16. These requirements, including the attachments referred to above, may be downloaded over the Internet from <http://utsystem.edu/offices/historically-underutilized-business/hub-forms>. For additional information contact the Office of HUB Development, The University of Texas System, 512/499/4530.

Should we discover additional subcontractors claiming Historically Underutilized Business status during the course of this contract we will notify you of the same. In addition, if for some reason a HUB is unable to fulfill its contract with us, we will notify you immediately in order to take the appropriate steps to amend this contractual obligation.

***Continuous Contract:** Any existing written agreement (including any renewals that are exercised) between a prime contractor and a HUB vendor, where the HUB vendor provides the prime contractor with goods or service under the same contract for a specified period of time. The frequency the HUB vendor is utilized or paid during the term of the contract is not relevant to whether the contract is considered continuous. Two or more contracts that run concurrently or overlap one another for different periods of time are considered by CPA to be individual contracts rather than renewals or extensions to the original contract. In such situations the prime contractor and HUB vendor are entering (have entered) into "new" contracts.

HUB Subcontracting Plan (HSP)

In accordance with Texas Gov't Code §2161.252, the contracting agency has determined that subcontracting opportunities are probable under this contract. Therefore, all respondents, including State of Texas certified Historically Underutilized Businesses (HUBs) must complete and submit this State of Texas HUB Subcontracting Plan (HSP) with their response to the bid requisition (solicitation).

NOTE: Responses that do not include a completed HSP shall be rejected pursuant to Texas Gov't Code §2161.252(b).

The HUB Program promotes equal business opportunities for economically disadvantaged persons to contract with the State of Texas in accordance with the goals specified in the 2009 State of Texas Disparity Study. The statewide HUB goals defined in 34 Texas Administrative Code (TAC) §20.13 are:

- **11.2 percent for heavy construction other than building contracts,**
- **21.1 percent for all building construction, including general contractors and operative builders' contracts,**
- **32.9 percent for all special trade construction contracts,**
- **23.7 percent for professional services contracts,**
- **26.0 percent for all other services contracts, and**
- **21.1 percent for commodities contracts.**

- - Agency Special Instructions/Additional Requirements - -

In accordance with 34 TAC §20.14(d)(1)(D)(iii), a respondent (prime contractor) may demonstrate good faith effort to utilize Texas certified HUBs for its subcontracting opportunities if the total value of the respondent's subcontracts with Texas certified HUBs meets or exceeds the statewide HUB goal or the agency specific HUB goal, whichever is higher. When a respondent uses this method to demonstrate good faith effort, the respondent must identify the HUBs with which it will subcontract. If using existing contracts with Texas certified HUBs to satisfy this requirement, only contracts that have been in place for five years or less shall qualify for meeting the HUB goal. This limitation is designed to encourage vendor rotation as recommended by the 2009 Texas Disparity Study.

In accordance with 34 TAC §20.13(d)(1)(D)(iii), the goals below are the applicable goals for the University of Texas System Administration only.

- Other Services HUB Goal – 26%**
- Commodities HUB Goal – 31.04%**
- Special Trades HUB Goal – 32.9%**

- Responses for Special Trades construction shall submit a HUB Subcontracting Plan (HSP) that meets the Good Faith Effort prescribed in Method B (Attachment B). See instruction for Option three on the HSP Quick Check List. No other Good Faith Effort method will be accepted.

 2. Submit a revised HSP prior to execution of each contract process as described in Option Three of Quick Check List.
- Respondents shall submit a completed HUB Subcontracting Plan (HSP) to be considered responsive. Failure to submit a completed HSP shall result in the bid, proposal or other expression of interest to be considered Non-responsive.
- Respondents who intend to Self-Perform all of their work shall submit an HSP for Self Performance HUB Subcontracting Plan (HSP) as described in Option Four.
- Prime contractor Progress Assessment Report (PAR) shall be submitted with each request for payment as a condition of payment.

The notice must specify at a minimum the contracting agency's name and its point of contact for the contract, the contract award number, the subcontracting opportunity they (the subcontractor) will perform, the approximate dollar value of the subcontracting opportunity and the expected percentage of the total contract that the subcontracting opportunity represents. A copy of the notice required by this section must also be provided to the contracting agency's point of contact for the contract no later than ten (10) working days after the contract is awarded.

- The respondent must, upon request, allow the contracting agency to perform on-site reviews of the company's headquarters and/or work-site where services are being performed and must provide documentation regarding staffing and other resources.

Unless the contracting agency specified a different time period, you must allow the HUBs at least seven (7) working days to respond to the notice prior to your submitting your bid response to the contracting agency. When searching for Texas certified HUBs, ensure that you use the State of Texas' Centralized Master Bidders List (CMBL) and Historically Underutilized Business (HUB) Search directory located at <http://mycpa.state.tx.us/tpasscmbsearch/index.jsp>. HUB Status code "A" signifies that the company is a Texas certified HUB.
- b. List the three (3) Texas certified HUBs you notified regarding the subcontracting opportunity you listed in SECTION B-1. Include the company's Vendor ID (VID) number, the date you sent notice to that company, and indicate whether it was responsive or non-responsive to your subcontracting opportunity notice.

Question

5. While we understand that we are to provide the timeframes for delivery. Are their dates that would serve as the soonest or latest that the University would like the service operational?

Answer

Vendors should propose the delivery time after receipt of order. University will evaluate the delivery times as part of the specific responses from vendor. University will negotiate with vendor exact acceptance date immediately following delivery of the service.

Question:

Is the requirement of HB 1295 that becomes effective 1 January 2016 for vendor disclosure a requirement of this contract?
