

THE UNIVERSITY OF TEXAS SYSTEM
SUMMARY OF STATUTORY AUTHORITY FOR TUITION, FEES, & CHARGES

No institution of higher education may collect from students attending the institution any tuition, fee, or charge of any kind except as permitted by law Texas Education Code Section 54.003

The following are tuition, fees, and charges authorized by the Texas Education Code. All tuition, fees, and other charges must be published in the institutional catalog with a description of the criteria for any authorized exemptions and waivers.

Those noted with an asterisk* require approval by the U. T. System Board of Regents. Authority to charge those fees noted with ** has been delegated to the presidents pursuant to the Regents' *Rules and Regulations*. The president's authority to charge a fee under Rule 40401 requires a finding by a president that the fee complies with the requirements of the statute authorizing the fee and, in some cases as noted below, is conditioned on prior review and approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs.

1. **Matriculation Fee**** [Section 54.006(a-1)]

A general academic teaching institution or a medical or dental unit may withhold from tuition \$15 if a student withdraws before the first class day. Regents' Rule 40401 delegates authority to set a matriculation fee to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs, .

2. **Installment Tuition Handling Fee** and
Installment Tuition Delinquency Fee****
[Section 54.007(c)]

3. **Graduate Tuition*** [Section 54.008]

The Board must set institutional graduate program tuition at rates at least equal to the minimum tuition rates set by Section 54.051 but not in excess of twice the minimum rates. The statute provides that the difference between the minimum rate and the rate set by the Board shall not be accounted for in a manner that reduces the general revenue appropriations to an institution.

Authority to charge a tuition rate higher than the regular tuition rate, but not in excess of statutory nonresident tuition, to resident undergraduate students who have attempted excessive hours was delegated to the presidents by action of the Board as described in Rule 40405 of the Regents' *Rules and Regulations*. There are exceptions for hardships or other good cause.
- Note: Although the statute now speaks to repeated hours, the Board's delegation does not extend to repeated hours.*
- M. **Optometry Program** [Section 54.008(e)]
The Board may set tuition at a rate not more than four times the statutory rate.
- N. **Pharmacy Program*** [Section 54.008(f)]

- O. **Fixed Tuition for Certain Transfer Students with Associates Degrees** [Section 54.016]
An institution may develop a fixed tuition rate program for students who transfer to the institution within 12 months of earning an associate degree at another institute of higher education.

NOTE: Tuition and Fee Increase Limitations.

Section 54.009 prohibits an increase in tuition and fees charged a student for a particular semester or term after a student registers for the semester or term without regard to whether the student has paid the tuition and fees.

Section 54.017 prohibits a general academic teaching institution from increasing the tuition of an undergraduate student, including a transfer student, who is participating in a fixed tuition plan. This prohibition applies only to such students who enter the institution in or after the 2014 fall semester. The institution is unable to increase tuition charges per semester credit hour for at least the first 12 consecutive semesters that occur after the date of the student's initial enrollment at any public or private institution of higher education. This section also prohibits institutions from charging a student participating in the plan fees that exceed the amount charged to a similarly situated student not participating in the plan.

NOTE: Billing Requirement.

Section 54.015 requires all tuition be accumulated into one tuition charge for billing and catalog purposes, but Section 55.16(d) allows a governing board to accumulate all mandatory fees or charges as a separate "facilities and services" fee.

5. **Individual Coaching or Instruction**** [Section 54.051(l)]

A charge ("Supplemental Fees") shall be collected in addition to regular tuition for a student registered for art, architecture, drama, speech, or music where individual coaching or instruction is the usual method of instruction. Regents' Rule 40401 delegates authority to charge the fees to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs.

6. **Designated Tuition*** [Section 54.0513 & Section 54.261]

In addition to other tuition authorized, a governing board may charge any student an amount designated as tuition that the governing board considers necessary for the effective operation of the institution. A governing board may set a different tuition rate for each program and course level offered by each institution of higher education. A governing board may set a different tuition rate as the governing board considers appropriate to increase graduation rates, encourage efficient use of facilities, or enhance employee performance.

Section 54.261 allows the Board to waive all or part of the tuition charged under Section 54.0513 if it finds that the payment would cause an undue economic hardship. This authority is delegated to institutional presidents under Regents' Rule 40401.

Amounts collected are defined as institutional funds and may be used for any purpose at the institution at which the revenue is collected, subject to the laws governing the institution and the governing board. The governing board must conduct a public hearing before increasing "designated tuition" rates.

7. **Laboratory Fees**** [Section 54.501(a)]

A mandatory laboratory charge of not less than \$2 nor more than \$30 for any one semester or summer term for any student in any one laboratory course shall be made but must not exceed the

cost of actual materials and supplies used by the student. Regents' Rule 40401 delegates authority to charge the fees to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs.

8. **Fees for Payments by Electronic Funds Transfer or Credit Cards**** [Section 54.5011]

An institution may charge a credit card user a fee for processing payment or in connection with refusal of payment of tuition, a fee, or another charge made or authorized in person, by mail, by telephone cell, or through the Internet by means of an electronic funds transfer or credit card. The fee or charge must be in an amount reasonable and necessary to reimburse the expense incurred by the institution in processing the payment or payment transaction, and the institution must notify the student of any fee to be charged before accepting payment. Regents' Rule 40401 delegates authority to charge the fees to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs.

9. **General Deposits*** [Section 54.502]

A reasonable deposit not to exceed \$100, or \$30 for students at U. T. medical, dental and allied health units, may be charged each student to insure against any losses, damages, or breakage for which the student is responsible and to cover other amounts owed to the institution. The deposit must be returned to the student, less any amounts owed by the student, within a reasonable time not to exceed 180 days.

These fees are sent to the Board for approval via the consent agenda when changes are proposed. Approval by the appropriate Executive Vice Chancellor is also required.

10. **Student Services Fees*** [Sections 54.503, 54.5031, and 54.262]

These fees may be collected to cover the activities that “directly involve or benefit students including the cost of textbook rentals, recreational activities, health and hospital services, medical services, intramural and intercollegiate athletics, artists and lecture series, cultural entertainment series, debating and oratorical activities, student publications, student government, the student fee advisory committee, student transportation services not covered under other authority, and any other student activities and services specifically authorized and approved by the [Board].”

Except for U. T. Austin, this fee statute requires input to the Board from a 9-member, student majority, student fee advisory committee and the president of the institution concerning the student fee budget.

Section 54.262 allows the Board to waive any part of the student services fees in the case of undue financial hardship, provided the number of students does not exceed 10% of total enrollment. The authority to waive fees is delegated to institutional presidents under Regents' Rule 40401.

A. **Compulsory Student Services Fees**

These fees are those charged to all students and may not exceed \$250 per semester or summer session if approved by a majority at a general student election. The fees must be

assessed in proportion to the number of semester credit hours for which a student registers. (No compulsory fee for parking or parking facilities may be levied.) Increases resulting in a fee of more than \$150 may not take effect unless approved in a student vote or by a majority vote of the student government. In subsequent years, a fee increase of more than 10% of the fee “approved at the last student election” may be made only if authorized by an election.

B. Voluntary Student Services Fees

These fees are charged only to those students who make use of the service for which the fee is established.

11. Incidental Fees and Other Charges [Sections 54.504 and 55.16]**

As described above, authorization is given in several sections of the *Texas Education Code* for the Board to approve certain specified fees and charges. One general authority under which an institution of higher education may collect fees from students is *Texas Education Code* Section 54.504 commonly referred to as the Incidental Fee Statute.

Section 54.504 allows the Board to consult with a student fee advisory committee prior to fixing incidental fees for services such as, but not limited to, “fees such as late registration fees, library fines, microfilming fees, thesis or doctoral manuscript reproduction or filing fees, bad check charges, application processing fees, and laboratory breakage charges.” An incidental fee may not be levied if the Board currently makes a charge for the same material or service under authorization of other law. (All U. T. System institutions have established student committees for input into the proposed establishment of fees and proposed fee increases.)

A second general authorization is contained in Section 55.16 of the *Texas Education Code*. It authorizes the Board to fix and collect rentals, rates, and charges for occupancy, services, use, and/or availability of all or any of its property, buildings, structures, activities, operations, or other facilities. (This authorization includes the authority to fix and collect rentals for university-owned dormitories and apartments.) The Board is required to fix each rental, rate, charge, or fee in an amount sufficient to pay for each related activity or service, all associated capital costs, including debt service, operation, and maintenance costs, including associated overhead costs of the System or institution, plus prudent reserves. The Board may, for billing and reporting purposes, accumulate all mandatory fees and charges provided for by *Texas Education Code* Section 55.16 or Chapter 54 as a separate facilities and services charge.

Regents’ Rule 40401 delegates authority to charge the fees to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs. Incidental charges for non-academic goods and services that are not typically required as a part of a student’s enrollment at an institution are delegated directly to presidents (e.g. elective recreational activities, personal training, etc.).

12. Environmental Service Fee* [Section 54.5041]

The Board may charge a fee to provide environmental improvements at the institution through

services related to recycling, energy efficiency and renewable energy, transportation, employment, product purchasing, planning and maintenance, or irrigation, or to provide matching funds for grants to obtain environmental improvements. The initial fee and any increases must be approved by a majority vote of the students who participated in a student election. The initial fee cannot exceed \$5 for each regular semester or summer term of more than six weeks; or \$2.50 for each summer session of six weeks or less. Any subsequent increase may not result in an amount that exceeds \$10 for each regular semester or summer term of more than six weeks; or \$5 for each summer session of six weeks or less. The fee may not be charged after the fifth academic year in which it is first charged unless the institution has issued bonds payable from the fee, in which case the fee may not be charged after the academic year in which all such bonds have been fully paid. An institution may not use revenue generated by the fee to reduce or replace other money allocated for environmental projects, and the fee is not considered in determining the maximum amount of student services fees an institution may charge.

13. **Vehicle Registration Fee**** [Section 54.505(a)] and
Parking & Traffic Enforcement Fees** [Section 54.505(b)]

The Board may assess reasonable vehicle registration fees and a reasonable fee or fees for the provision of facilities and the enforcement and administration of parking and traffic regulations. No facilities fee may be charged to a student unless the student desires to use the parking facilities. Authority to set fees for vehicle registration and fees and other charges associated with parking was delegated to the presidents. Regents' Rule 40401 delegates authority to charge the fees to the presidents with approval by the Executive Vice Chancellor for Academic Affairs or the Executive Vice Chancellor for Health Affairs.

14. **Medical Services Fee*** [Section 54.50891]

The Board may charge a fee not to exceed \$55 per semester or term. The fee may be used only to provide medical services to registered students and may be charged only after students and administrators have an opportunity to offer recommendations on the type and scope of services to be provided. The fee may be increased to an amount not to exceed \$75 per semester or term if approved by majority vote in a general student election. The Board may not increase the fee by more than 10% per year unless approved by a majority vote in a general student election. For U. T. Austin, a fee increase must be approved by a medical services fee committee; a majority of the members of the committee must be students.

15. **International Education Fee*** [Section 54.5132]

The Board may collect a fee of not less than \$1 and not more than \$4 per student per semester or summer session for funding an international education financial aid fund. The fee may only be increased if approved in a student election. (*Note: Levy of this fee is authorized for U. T. Austin in Section 54.5131.*)

16. **Student Union Fees*** [Section 54.515]

The Board may charge a student union fee not to exceed \$20 per regular semester and \$10 per summer term to finance, construct, operate, maintain and improve a student union building. The fee may be imposed or increased above \$10 per regular semester and \$5 per summer term only after majority approval by students participating in a general election. This statute is not applicable to institutions that have special student union fees.

17. **Continuing Education Course Fees**** [Section 54.545]

The Board shall charge a reasonable fee to each person registered in a continuing education course. The fee must be set in an amount sufficient to recover the costs of providing the course. Authority to set continuing education fees was delegated to the presidents under Regents' Rule 40401.

18. **Student Endowment Scholarships and Internship Program Fee*** [Section 56.241 et seq.]

A general academic teaching institution may elect to participate in the Student Endowment Scholarship and Internship Program upon a determination by student government that the program will benefit the institution and upon approval by a majority vote in a general student election. If approved by majority vote, the Board imposes the fee and, with the assistance of an advisory committee, determines eligibility requirements and selects students to receive the scholarship and internship funding.

19. **U. T. Arlington Special Fees**

A. **Shuttle Bus Fee*** [Section 54.512]

The Board may levy a shuttle bus fee not to exceed \$10 per regular session and \$5 per summer term for the sole purpose of financing shuttle bus service.

B. **Intercollegiate Athletics Fee*** [Section 54.5121]

The Board may impose an intercollegiate athletics fee not to exceed \$7.75 per semester credit hour unless an increase is approved by a majority vote at a student general election. If the amount of the increase does not exceed five percent, the legislative body of the student government may approve the increase.

C. **Recreational Facility Fee*** [Section 54.5122]

The Board may charge a fee in an initial amount not to exceed \$9 per student for a regular semester; \$6 for a summer session of 10 weeks or more; \$4 for a summer session of 8 weeks or more; and \$3 for a summer session of less than 8 weeks. The fee may be imposed only after approval by a majority vote of those students voting in a general student election called for that purpose. A fee increase from one academic year to the next requires approval of the student government or, if more than 10%, by a student election. The fee is capped at \$75 per student for regular semester, \$50 for summer session of 10 weeks or more; \$35 for summer session of 8 weeks or more; \$25 for summer session of less than 8 weeks; and \$10 for a summer session of less than 3 weeks if the student was not enrolled in the preceding regular semester.

- D. **Student Union Fee*** [Section 54.529]
The Board may levy a student union fee not to exceed \$150 per student for each regular semester or \$75 per student for each summer term. No increase above an amount previously levied may be made unless approved by a majority vote at a student general election held for that purpose. The ballot proposition for such an election must clearly state the amount of the proposed fee increase and describe the reason for the proposed fee increase.

20. **U. T. Austin Special Fees**

- A. **Student Recreational Sports Fee*** [Section 54.510]
The Board may set a fee not to exceed \$20 per semester or 12-week summer session or \$10 for a 6-week summer session when a campus recreational sports facility is available for use. The fee for a particular facility may only be collected for 20 years or until the bonds for financing the facility have been paid off, whichever occurs last.
- B. **Student Services Fees*** [Section 54.513]

- D. **U. T. Austin Union Fee*** [Section 54.530]
A compulsory fee not to exceed \$33 for regular session and \$16.50 for each summer session term may be levied for operating, maintaining, improving, equipping, and/or constructing additions to the existing Texas Union building. The fee may be increased by no more than 10% per year after concurrence by the student fees advisory committee and may be raised by more than 10% per year upon approval by a majority vote of students participating in a general election to a total amount not to exceed \$50 for each regular session and \$30 for a summer session term.
